

B&D
BUILDERS

The background image shows the interior of a large, rustic wooden barn. The space is characterized by its extensive use of wood, from the floor and walls to the structural beams and a prominent staircase. The staircase, located in the center-right, features wooden steps and railings with decorative X-bracing. Several ornate chandeliers with multiple warm-toned lights hang from the high ceiling, which is supported by a complex network of wooden trusses. In the foreground, a wooden railing with dark metal spindles and horizontal bars runs across the frame. The overall atmosphere is warm and inviting, highlighting the craftsmanship of the building.

Why Choose B&D Builders?

At B&D Builders, we build it right, or we don't build it. We are a full-service custom builder with the experience and expertise to bring any project to life. Since 2000, our skilled designers and craftsmen have brought creativity and attention to detail to hundreds of buildings, from simple bank barns to large equestrian arenas.

Your complete satisfaction is our ultimate goal. We listen. We ask the right questions. We welcome your input during every step in the process to ensure you love the space where you live, work, or play. You'll find no egos or hidden agendas here—just a commitment to quality craftsmanship and satisfied customers.

Fine Custom Buildings, Built Right

A riding arena fit for your prize horses. A grandiose space for life's celebrations. A comfortable home that reflects your sense of style. B&D Builders can build it all.

Whether you come to us with a simple sketch or completed plans, we can make the project you've been dreaming of a reality.

Equestrian Facilities

B&D's equestrian facilities bring together form and function beautifully.

We start by looking at the best use of your land—how the placement of your barn can take advantage of sunlight and winds for both the health of your horses and energy efficiency.

Then we custom build to meet each of your needs and desires. Each facility we build is one of a kind, considering the size and number of stalls you require, windows, ventilation, flooring, lighting, and more. We may add wash stalls, tack rooms, or an indoor arena. However you and your horses need to use your space, we'll make sure your new equestrian facility works for you both.

Call 717.687.0292 to get started.

Event Barns

A B&D event barn sets the stage for some of life's most special moments: a couple's first dance, a golden anniversary, a celebration of a long career. Whether you picture a soaring space for weddings or a warm, intimate environment for more casual gatherings, we can build a custom timber frame structure that captures the imagination and adds value to your business.

Bride and groom quarters, catering kitchens, storage spaces—we consider all the ways your event barn could be used and create custom solutions to meet your needs. And with our years of experience, your event barn won't be just beautiful, but also built to address any safety, accessibility, and environmental concerns as well.

Call 717.687.0292 to get started.

Party Barns

Backyard party barns provide the perfect space for recreation—whatever that means to you. A game room for the kids? A home theater with a bar for watching the game? Maybe a studio for yoga or art? An outdoor kitchen for entertaining? However you kick back and relax, B&D Builders can build the perfect oasis.

Call 717.687.0292 to get started.

Bank Barns

A custom B&D bank barn is an ideal option for steep-sloping land. We start with the proper foundation to stand against the force of the ground, then build a timber frame barn that works the way you need it to. Bank barns provide easy access for your animals and farm equipment, with greater protection from winter cold and summer heat than barns built on flat land. And thanks to bank barns' two-floor design, the upper floor provides plenty of space for storage or even offices.

Barn Renovations

Have an existing barn that needs a little TLC? Or maybe your barn has outlived its original purpose. B&D Builders can help. Over the years, we've completed many barn renovations, converting farming barns into horse barns or even party barns. If you have a vision, or even if you need a little help, our team can turn your existing barn into the barn of your dreams.

Historical Restoration

At B&D Builders, we're known for our work in historical restoration and repair. If you're looking to retain—or even create—historical accuracy of a particular time period, our team is second to none. We've been entrusted with buildings on the National Register of Historic Places, including Herr's Mill Bridge and the Star Barn, both in Central Pennsylvania.

Call 717.687.0292 to get started.

Commercial Buildings

While glass, steel, and concrete are common building materials for commercial spaces, the warmth and durability of timber frames will truly set your business apart. A custom B&D commercial building can be tailored to suit your business's unique needs, providing a space that inspires both employees and customers alike.

Homes

While we're best known for our barns and equine facilities, B&D's craftsmanship and time-honored building methods are also perfect for creating exquisite, one-of-a-kind homes. We look at every room and the way you live to design a home that is perfectly your own, a sturdy retreat from the world that reflects your personal style. Our custom approach ensures a B&D home is as unique as the family who lives there.

Our Process

At B&D Builders, we believe that every building is an opportunity to create something special with our customers. Buildings should be more than functional, they should inspire and delight the people who use them every day. To that end, we include you in our building process to ensure the building you're envisioning is the building we deliver.

1. Initial Concept & Site Visit

We'll visit your job site to learn about your goals and get the lay of the land. Whether you have a sketch, completed plans, or nothing at all, we'll discuss how B&D can help.

2. Draftsmen

We'll take your sketch or idea and form it into a full drawing. Seeing your project on paper can really help determine if it works for your needs—and your property.

3. Architects & Engineers

Once we know we're heading in the right direction, we work with the best architects and engineers to create detailed plans and designs that account for the space, geology, and local codes of your project.

4. Construction

Using as much local material as possible, our professionally trained crews get to work with a perfect balance of skill and speed. You will have a dedicated job supervisor and project manager to keep everything on track along the way.

5. Your Style

We work with you to reflect your personal style while delivering the everyday function you require. Reviewing photos or websites or even visiting a barn or home you like are welcome parts of this phase! And it's your colors, style, and ideas we move forward with.

6. Interior Options

From doors to windows, staircases to fireplaces, wide-open spaces to cozy places, this is where form meets function to suit your tastes and the way you live or work every day.

7. Finishing Touches

While we're sure you'll be pleased with your new building, we know the project doesn't end there. From wood staining to landscaping to other finishing touches, we'll make sure every detail is just as you pictured it.

8. Your Completed Dream

We'll walk through your completed project with you to ensure you're satisfied. We're not happy until you are.

The Smallest Details Are the Most Important to Us

While there's no mistaking a building that has been designed and built by B&D Builders, it's only when you take a closer look that you can truly understand the skilled craftsmanship and attention to detail that make our structures shine. From handmade pegs to hand-hewn accent posts, to unique ironwork and millwork, it's the little things that make your building special and totally unique to you.

Craftsmanship, attention to detail, and a job done right: it's how we were trained, but it's also just who we are at B&D Builders.

All Under One Roof

When choosing a specialty builder, you may find that some can handle one part of your project, but not others. At B&D Builders, we're virtually a one-stop shop. We work with best-in-class specialty brands like Mid-Atlantic Timberframes, Mid-Atlantic Steel Fabrication, and Vintage Millwork & Restoration to provide a wide range of services often needed in custom barn and home construction. Plus, we have our own crews, ensuring reliability, better lead times, and quality control from start to finish.

Mid-Atlantic Timberframes

Mid-Atlantic Timberframes provides old-world craftsmanship combined with modern CNC technology to ensure your new structure will stand for generations to come.

Mid-Atlantic Steel Fabrication

At Mid-Atlantic Steel Fabrication, superior workmanship meets state-of-the-art technology to create metal gates, fencing, railings, and other items to make a statement that lasts.

Vintage Millwork & Restoration

Vintage Millwork & Restoration's doors, windows, cupolas, and other architectural elements add the final touches that make your project distinct and historically accurate.

Our Commitment to You

Customers discover B&D Builders because they're looking for a beautiful new structure that will last for years to come. But they choose our company because of the personal attention and care we bring to every project.

Our families have worked with animals and the buildings they call home for generations. We were raised with that knowledge, as well as a strong work ethic and attention to detail. With more than 20 years in the building industry, we've learned a thing or two more about craftsmanship and working one-on-one with customers. It's what we enjoy most, and we approach every project as a true collaboration, an opportunity to make your vision a reality.

We take great pride in our work. We're not happy until you're happy, and we'll do what it takes to get things done. It's not just a slogan. At B&D Builders, we build it right, or we don't build it.
